“Without a doubt, I would not be where I am today without Dr. Hedlund’s mentorship and guidance. She taught me to be a skilled surgeon in the OR and to practice with purpose. Even more importantly though, she molded me into a great clinician and teacher to my students, interns, and now residents. I hope one day to become even half the mentor to my residents as she was to me. I am lucky to have learned from her and to call her a friend.”
