Peter really cared deeply about his residents and taught us all how to think through problems in a methodical way.

– Julia Sumner, DACVS-SA

Peter provided me mentorship in veterinary orthopedic research and publication prior to my residency. He gave me an opportunity and I wouldn't be a Diplomate of the ACVS without his support. I pass along help with research and publication to interns and residents with the hope of impacting their careers the same as Peter impacted mine.

– Eric C. Hans, DVM, DACVS-SA

# What being a mentor means to me:

Peter Muir, BVSc, PhD, DACVS

“It has been a privilege to work with many outstanding young clinicians and scientists throughout my career. Following the professional growth of my mentees over time has been a very rewarding experience. I am proud of their accomplishments and very grateful for this honor.”

– Peter Muir, BVSc, PhD, DACVS
